

- 1) Run the following Scripts on SQL Server 2017 (the Insert for Libraries helps you with some initial data):
 - CreateCities.sql
 - CreateLibraries.sql
 - InsertIntoCities.sql
 - InsertIntoLibraries.sql
- 2) Install .NET Core 2.0 SDK
- 3) Open the Visual Studio (VS) 2017 solution ReactCrudLibrary
- 4) Confirm it has the below packages installed by going to Tools >> NuGet Package Manager >> Manage NuGet Packages for Solution

- 5) Run IIS Express on VS which will open the web page <http://localhost:60817/>
